

SALZJYUR (SZUR) — Transparency Statement

We believe transparency is essential for trust.

◆ Smart Contract Audit

The SALZJYUR (SZUR) smart contract has undergone a **free community security audit** based on manual review and industry best practices.

No critical vulnerabilities were found.

◆ Token Supply

- Initial supply: **100,000,000 SZUR**
- Maximum supply cap: **200,000,000 SZUR**
- Any minting is strictly capped and visible on-chain

◆ Token Tax (1%)

- 0.1% burn (permanent supply reduction)
- 0.45% liquidity/treasury wallet
- 0.45% marketing wallet

Liquidity tax is wallet-based and **not auto-liquidity**. This is disclosed clearly.

◆ Anti-Bot & Anti-Whale

- Anti-bot cooldown to reduce spam and sniper activity
- Max transaction: 0.5% of total supply
- Max wallet: 1.5% of total supply

◆ Owner Privileges

The owner currently retains control for:

- Project development
- Liquidity management
- Exchange listings
- Security adjustments

Future plans may include:

- Disabling minting
- Ownership renouncement
- Increased decentralization

All actions are **public and on-chain**.

✓ Our Commitment

We commit to:

- Transparency
- Clear disclosures
- No hidden functions
- No backdoors

Always **verify on-chain** and do your own research (DYOR).
